25X1 3. [] Called Jay Sourwine, Counsel, Senate Internal
Security Subcommittee, to say that [] could be 25X1
made available to a congressional committee early in the year. However,
we would wish the appearance to be in executive session, particularly in
25X1 order to ensure [] Sourwine said he fully understood 25X1
this and was most appreciative. I pointed out [] had his own ideas
and would probably not accept guidance as to what he would say. Sourwine
said this would pose no problems. I then said the one major question was of 25X1
the prior claim of the House Committee on Un-American Activities for []
appearance. I suggested Sourwine himself might want to contact the staff of
that Committee to see if they could work out a mutually acceptable arrangement.
Sourwine was not receptive to this, remarking that if they had the first claim
he would defer to them, but would like to get a crack [] as soon as they
are through if they had not already covered the matters of interest to the Senate
Subcommittee. 25X1
I told Sourwine I would let him know as soon as arrangements with 25X1
the HCUA had been worked out.

25X1 5. [] Arranged with George Murphy, Joint Committee
on Atomic Energy staff, for him to be briefed by [] EUR Division,
on the NATO security cases at 11:00 A. M. on Thursday 19 December. 25X1

25X1 6. [] - LLM) In connection with a call made earlier
25X1 to [] and based on the advice of [] Office of Security, 25X1
I called Mr. Charles E. Campbell, Legislative Assistant to Senator Richard B.
Russell, to report that we had no record of [] Mr. Campbell
thanked us for our help and advised that he had just located [] with a 25X1
[] 25X1

25X1 7. [] - LLM) In connection with a letter from Representative
25X1 Clarence Miller
25X1 []
25X1 [] advised that [] of the 25X1
Office of Personnel, would be getting in touch with Dr. Alberti. A letter
to this effect will be sent to Representative Miller.

25X1 8. [] Talked with Chester Smith, General
Counsel, House Committee on Un-American Activities, and advised him
that we were reviewing the possibility of [] appearance 25X1
before the Committee in executive session. I told him that in the near
future we would be in touch with him again to work out the details. I
suggested that we have a knowledgeable person such as [] 25X1
(who talked with Smith earlier this year) review the areas of [] 25X1
knowledge with the Committee staff and perhaps they would want to have
a staff conference with [] before making final decisions about his
appearance. Smith was pleased to hear this and said he and the Committee
staff would cooperate in every way in making the necessary arrangements.
I told Smith that Jay Sourwine, on the Senate Internal Security Subcommittee,
had recently contacted us and requested that [] be made available to 25X1
that Committee but we had informed Sourwine of HCUA's prior claim
based on their contacts with us earlier. I suggested that if the two
committees wanted to get together on this, it was perfectly agreeable with
us and that Sourwine might contact him in this regard. Smith said he would
talk with Sourwine if he called.
